

Over the Rhine Community Council
Board of Trustees (BOT) Meeting
Minutes. August 15, 2016

Attending: Martha Good, Matt Jacob, Joan Kaup, David Macejko, Bob Sehlhorst, Amy Silver, John Walter

Absent: Patricia Bittner, Cassandra Barham, Seth Maney, Mark Manley, Domonique Peebles

Neighborhood Sustainability

Catalina Freixas, Mark Abbot and research team from Harris-Stowe State University are in Over-the-Rhine to collect data on a case study about neighborhood sustainability.

Job Fair

Cincinnati Works offered to work with Bob and David about producing the job fair at Chatfield College. Bob is happy to get a signed agreement with Cincinnati Works. Bob will talk with Mark about the likelihood of getting NSP reimbursement if we don't produce the event until after August 28th. We don't want to NOT be reimbursed the \$2,000.

Community Budget Request

Board makes a recommendation to the full membership for approval and then we submit it to the city.

Parking study – Current conditions and current demand, projection how many space will be required when the neighborhood is completely built out, how do we plan and prepare now for the future projection, including parking meter policy and possible solutions. Pendleton has a parking permit system written 1990 that they would like to update.

Implement Liberty Street Improvements – What ever the final recommendation is from the community.

Litter removal as a third option.

Speed bumps on E. Clifton

Matt will present the options to the Membership for them to vote.

Good Neighbor Agreement

South of Liberty, Elm is very littered. Would a GNA help? Can the business sign a GNA and agree to clean up their sidewalks? John will call Andy Huxel at OTR Community Housing.

Review line-up of speakers for the Membership Meeting. We need to time each speaker and try to keep on task.

7:45 Meeting adjourned.
