What is a Special Improvement District (SID)?
A Special Improvement District (SID) is a private, not-for-profit organization established under state law. A SID is a mechanism through which property owners assess themselves to provide funding for extended services aimed at the economic enhancement of the area. The need for such services has arisen as traditional U.S. cities have faced competition from shopping malls, out-of-town business/shopping centers and other new business districts. The experience of more than 1,000 existing SIDs throughout the United States has demonstrated the effectiveness of this mechanism in addressing the present economic and social challenges of urban development.

What is the SID Services Plan?
The OTR South SID Services Plan outlines the services and activities to be funded by the assessment paid by the property owners in the District. These services can be changed at each new term to meet the changing needs of the District.

Does everyone in the District have to pay the assessment?
If the owners representing 60% of the front footage OR 75% of the assessed value in the District sign the enclosed petition, then everyone owning private property in the District will receive an assessment for their required portion. Public property – including any church property, or property of the federal or state government or a county, township, or municipal corporation – is exempt, unless the entity specifically requests that the property be included within the district, or unless the church is a member of the existing qualified nonprofit corporation creating the district at the time the district is created.

How will I pay the assessment?
District assessments will be collected by the Hamilton County Auditor’s Office. Notification that your assessment is due will appear as part of your semi-annual property tax bill.

What safeguards exist to ensure property owners benefit from the services?
The assessment term is four years and its renewal is determined by the property owners of the District. The property owners of the District elect their own board of trustees, individuals who own property or represent property owners within the District. Elections are held every four years to coincide with the start of a new Services Plan. This elected board of trustees is responsible for the governance of the OTR South SID – more specifically, for ensuring the Services Plan is being executed by the Service Provider. Owners may appeal to their board of trustees regarding any issue in the District. The board will make every effort to address the legitimate concerns of all property owners, in the event that more than 50% of property owners in the District, as determined by appraised value, believe that the District is not providing sufficient benefit, state statute provides a mechanism for the District to be terminated at any time.

How is the assessment calculated?
By state statute, the Special Improvement District assessment must be apportioned equitably among all property owners within the service delivery area. Within the OTR South SID, plans call for 75% of the cost to be based upon the assessed value of your property, and 25% according to its front footage. Public property, as defined by Ohio Revised Code 1710.01, is all real property located in the District that abuts upon any street, alley, public road, place, boulevard, parkway, park entrance, easement, or other existing public improvement within the District. The formula exactly distributes the burden among large and small properties.

How will the services be provided?
The OTR South SID Services Plan outlines the services and activities to be funded by the assessment paid by the property owners in the District. The services are designed to enhance the appearance of the streets, sidewalks, and public spaces in the District and to provide a clean, healthy, and litter-free environment. The plan also provides for the coordination and leveraging of existing services provided by the City of Cincinnati and other partners, including the City of Cincinnati Public Services.

What is the SID?
The OTR South SID is a Special Improvement District (SID) that was created to provide funding for extended services aimed at the economic enhancement of the Over-the-Rhine South Improvement District. The District includes all property within the following boundaries:
- South of Liberty Street
- East of Central Parkway
- North of Central Parkway
- West of Broadway Street

Note: The boundary also extends east of Broadway Street, to Spring Street, from Central Parkway to E 13th Street.

The SID will choose a Service Provider to award a contract for the fulfillment of the Services Plan. The Service Provider that is selected will be required to provide employees a living wage and encouraged to hire residents from the neighborhood whenever possible.
