                 **Motion to ratify the action of the board of trustees that adopted this motion:** The Over-the-Rhine Community Council objects to the acting city manager’s unilateral and arbitrary decision to suspend the Liberty Street Safety project. This project has broad community support because of the community engagement efforts of DOTE. The Safety project is consistent with *Plan*

*Cincinnati's* goals (e.g., walkability, safety, equity, etc.) and is not a throwback to the planning and traffic engineering principles of the 1950s. Secure funding sources were confirmed in April of this year. We ask the city council to rescind the acting city manager's decision on the Liberty Street Safety project and also ask them to ratify the community engagement policy and principles that were adopted three years ago.
